# WHAT IS A SCHOOL UNIFORM EXCHANGE?

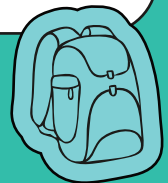

It's a way for families to donate school clothes and accessories they no longer need, so that they can be reused by other children and young people for free.

Around 1.4 million school uniforms are thrown away every year. But these uniforms and other school clothing could be reused, saving families money and helping to reduce carbon emissions (CO<sub>2</sub>) which are harmful to people and the planet.

By donating to the School Uniform Exchange, you're helping to make Camden a sustainable place to live.
